

Sticklers® Outdoor CleanWipes™ Singles

- Each Sticklers® CleanWipes™ stays clean and dry until the packet is opened
- Designed for use in harsh environments
- Fits in tool kits and pockets
- Technician-friendly

The new Stickler™ Outdoor Clean-Wipes™ are the only wipes on the market engineered for fast, reliable cleaning in harsh environments. They have been designed to stay clean and dry until the package is opened, which is ideal for convenient and consistent cleaning of fiber networks anywhere, any time: even in rain, snow, dust and winds.

Each lint-free wipe is packaged in a hermetically-sealed, contamination-proof packet that is opened just before use, so cleaning is fast and efficient. Each wipe is made from a field-proven, lint-free polyester fabric that resists shredding, even on LC end-faces. The wipes contain no cellulose, glues or bleaches which might contaminate surfaces. And the foil package protects both the wipe and the user from the solvents, eliminating the need for gloves or finger cots. Each wipe can clean up to six connector end-faces

Each package has a convenient “button-hole” so the wipes can be attached directly to cables, accessories or equipment.

This product always should be used with the Sticklers™ Fiber Optic Splice & Connector Cleaner, the only cleaning fluid on the market today specifically engineered for cleaning fiber. When dampened with the cleaning fluid, each Sticklers™ Outdoor CleanWipe™ will deliver fast, convenient “wet-dry” cleaning which is in compliance with the fiber optic industry’s best practices.

Packaging

50 packets/bag; 12 bags/case

MCC-FA1

Product Notes

For improved wet-dry cleaning, use the Sticklers™ Fiber Optic Splice & Connector Cleaner (#MCC-POC03M) which comes in a pocket-size spray canister. This cleaning fluid is strong, nonhazardous and dries fast, so it out-performs any other alternative on the market today. Although the container is convenient and small, it contains enough liquid for more than 400 cleanings, so the cost-per-cleaning is just pennies. Sticklers™ Benchtop CleanWipes™ may be a slightly more cost-effective choice for technicians working in offices, cable closets and on workbenches. There also are the larger wipes (#MCC-WF44) for cleaning jumpers and other exposed end-faces.
